Bilingual Canada Map Table

This high quality custom designed educational table will certainly be the envy of every teacher across the country! The unique and colourful Canada Map table takes advantage of the fact that geography is spatial, and provides a fun place for students to learn about the important areas of their country. Children learn best through engaging as a group and learning by doing. As students explore the Canada Map table, they build a permanent mental picture of their country and where important points are in relation to each other, and how they are connected. This high quality graphic printing is encapsulated in a high pressure laminate surface and is extremely resistant to everyday use.

USA Map Table

The USA Map table is designed and produced exclusively by MityBilt, be assured, you will find it no where else! This table helps students learn their states, their capitals, major physical features, and important routes that establish connections between parts of the country. Students need more than a rote memorization of state names and capitals in order to make U.S. geography meaningful. They should have an understanding of where states are in relation to each other, and the physical characteristics of each region. Students need to have a permanent mental picture of their country in their heads, so that anything they learn about their country can immediately be related to a place. The MityBilt USA Map table does just that!

Dry Wipe Idea Table
